

EMMANUEL UDEME

Frontend Engineer | Full-Stack Web Developer

 emmanueludemefe@gmail.com  linkedin.com/in/emmanuel-udeme  github.com/Udeme01

Professional Profile

Frontend-focused Software Engineer with 3+ years of experience building responsive, production-ready web applications using React, Next.js, TypeScript, JavaScript, and Tailwind CSS. Experienced in developing reusable interfaces, integrating REST APIs, working with databases and backend services, implementing authentication and payment workflows, and deploying applications to production.

Professional Experience

Software Engineer, Ace Leadership Hub 03/2026 – 06/2026
Ontario, Canada

- Designed and implemented backend API routes using the Node.js runtime for authentication, course enrollment, AI-powered features, and administrative workflows.
 - Integrated Paystack payment processing and implemented secure webhook verification to automate enrollment and synchronize transaction status.
 - Built role-based authentication and authorization (RBAC) for students and administrators.
 - Built a production-ready EdTech platform using Next.js, React, TypeScript, Supabase, and PostgreSQL.
 - Designed reusable service and frontend architecture that improved maintainability across the application.
 - Collaborated directly with stakeholders to translate business requirements into production-ready features.
 - Deployed and maintained production applications using Git and Vercel.
- Tech Stack:** Next.js • React • TypeScript • Node.js • PostgreSQL • Supabase • Paystack • REST APIs • Git • Vercel

Software Engineer (Flutter) — Peblo (Assessment Project) 06/2026 – 06/2026
India

- Developed a cross-platform AI-powered storytelling application for children using Flutter, Dart, and Riverpod.
 - Integrated the ElevenLabs Text-to-Speech API with intelligent audio caching to improve playback performance and reduce redundant network requests.
 - Built a dynamic, JSON-driven quiz engine with animated feedback, enabling flexible content updates without application releases.
 - Designed and managed a multi-state application flow for audio playback, quiz progression, and user interactions using Riverpod state management.
 - Optimized rendering and application performance to deliver a smooth 60 FPS experience on mid-range Android devices.
- Tech Stack:** Flutter • Dart • Riverpod • REST APIs • ElevenLabs API • Git

Freelance PHP Developer, GlobalVerifyHQ 03/2026
Lagos, Nigeria

- Diagnosed and resolved critical production issues on a live customer-facing verification platform.
- Built and maintained backend API integrations supporting customer verification workflows (KYC-adjacent).
- Collaborated with stakeholders to identify root causes and deploy production-ready fixes with minimal downtime.

- Improved system reliability through testing, documentation, and code maintenance.

Tech Stack: PHP • MySQL • REST APIs • Firebase • Git

Frontend Developer, FizzAura Luxury

01/2026
Lagos, Nigeria

- Developed responsive and reusable frontend components for an e-commerce platform using React and Tailwind CSS.
- Integrated REST APIs to deliver dynamic product content and improve the shopping experience.
- Collaborated with designers and stakeholders to implement modern, responsive interfaces across devices.
- Improved UI consistency, accessibility, and cross-browser compatibility

Mobile App Developer Intern, Emerald Golden Solution

03/2023 – 06/2023
Lagos, Nigeria

- Developed responsive mobile application interfaces using React Native.
- Integrated backend APIs to improve data synchronization and application performance.
- Built reusable UI components that accelerated feature development across multiple screens.
- Participated in testing, debugging, and code reviews to improve application quality.

Web Developer Intern, Prodigy InfoTech

02/2022 – 08/2022
India

- Developed responsive web interfaces and reusable components using React.js, HTML, CSS, and JavaScript.
- Improved website usability, responsiveness, and cross-browser compatibility.
- Collaborated with senior developers to implement new features and resolve UI issues.

Technical Skills

Frontend

- React.js
- Next.js
- TypeScript
- JavaScript (ES6+)
- HTML5
- CSS3
- Tailwind CSS
- React Router
- Responsive Design
- Accessibility
- Framer Motion

APIs & Application Development

- REST APIs
- API Integration
- Next.js API Routes
- Node.js
- Authentication
- Authorization / RBAC
- GraphQL
